

# LIBERATE®

## HEAVY-DUTY FOAMING CLEANER

### Available Packaging

## The **Liberate** Difference

**Liberate** is a foaming, heavy-duty cleaner/degreaser that clings to vertical surfaces as it cuts through and dissolves oils, fats, grease, grime, and soap scum.

Apply **Liberate** on floors, walls, cutting tables and processing equipment. **Liberate** may also be used in shower rooms to remove soap buildup.

### DESIGNED FOR USE IN:

- Meat cutting rooms
- Processing plants
- Industrial kitchens
- Commissaries
- Restaurants

## FEATURES

- **Patented Liquescence® technology**  
Contains patented Liquescence technology for exceptional cleaning and improved worker and environmental safety.
- **Richer foaming**  
Clings to vertical surfaces for penetrating degreasing actions.
- **Faster cleaning**  
Reduced labor costs.
- **Butyl-free**  
Contains no butyl (2-butoxy ethanol).
- **No free caustic**  
Free caustic endangers employees (burns skin and eyes).

Nonfood Compounds  
Program Listed (Category A1)  
Registration #026132

NSF A1 Registered, meets  
USDA 1998 A1 Guidelines.

# LIBERATE®

## HEAVY-DUTY FOAMING CLEANER

### DIRECTIONS FOR USE

**Liberate** may be applied with a foam gun. Fill the product reservoir with **Liberate**, connect the foam gun to a hot water hose, adjust the proportioning ratio, turn on the water valve on the foam gun and squeeze the trigger to dispense foam. Adjust existing foaming equipment to a dilution rate from 1:20 (6 oz./gal.) to 1:25 (5 oz./gal.) for best results.

### FOAM CLEANING: IN AREAS WITH FLOOR DRAINS

1. Cover or remove all food items in areas to be cleaned.
2. Flush thoroughly with hot water to remove surface soils.
3. With a foam gun or similar applicator, apply **Liberate** to all washable surfaces. Allow foam to cling at least five minutes. Repeat, if necessary.
4. Rinse thoroughly, using hot water. Allow surface to drain dry, tilting all movable surfaces to aid water run-off.
5. If surfaces require sanitizing, use **Buckeye Sani-Q™** according to directions.

### MANUAL CLEANING/LIGHTER SOILS:

(Dilutions for **Liberate** may vary between 1:12 and 1:40, depending on soil conditions, soak time and water temperature.)

1. Use **Liberate** at a dilution of 1:40 (3 oz./gal of hot water). Apply by mop, brush or spray.
2. Allow to set on surface for several minutes and then scrub with brush or sponge.
3. Remove solution on floors with a squeegee, mop or wet/dry vacuum.
4. Rinse immediately with hot water.

To clean filters, utensils and equipment, dilute **Liberate** at 1:20 (6 oz./gal) with hot water. Soak for 15 to 20 minutes and brush or sponge as necessary. Rinse thoroughly and sanitize if required.

Product produced under one or more of the following  
 U.S. Patents: 5,080,822; 5,080,831; 5,158,710;  
 5,419,848; 5,585,341; 5,849,682.  
 Canada Patents: 2,056,425; 2,080,352; 2,057,027.

### TECHNICAL SPECIFICATIONS

pH Concentrate	12.7 ± 0.2
% Actives	10.5%
Weight/Gallon	8.5 lbs
Color	Water Clear
Fragrance	None
Phosphates/NTA	None
Freeze Thaw	Unaffected

### SAFETY:

Wear eye protection, rubber or plastic gloves, and water or chemical resistant footwear.
